

Zebra (Motorola) Compatibility Test

Is your existing Motorola or Zebra Android device compatible with Stocktakes Online?

Make sure your device is connected to a wireless network.

On your Android mobile computer, simply open a web browser.

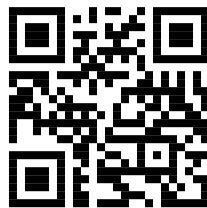

Make sure the line is blank and that the cursor is in the search bar - waiting for you to type or scan the web address in the barcode below.

If you have a 1D barcode (single red laser line) scan this barcode:

app.stocktakesonline.com.au

If you have a 2D area imager barcode reader, scan this barcode:

app.stocktakesonline.com.au

If it works, you will see a this:

A screenshot of a mobile web browser showing the 'Stocktake Portal' login page. The page has a light blue background. At the top, it says 'Stocktake Portal' and 'Sign in to your company'. Below this are three input fields: 'Company' with a placeholder 'Company name', 'Email address' with a placeholder 'you@yourcompany.com', and 'Password'. At the bottom is a blue 'Sign in' button. The browser's address bar shows 'stocktakesonline.com.au'.
